

port office inspection service, in the Post Office Department.

"There is no reason," Mr. Brown explained, "why at least a major part of this activity should not be put under one head. Forces of detectives that could be detailed to perform special duty when it was required of them. Furthermore, the fact that information gathered by one branch would then become available for another would be of advantage."

Mr. Brown, like all other members of the Congressional joint committee on reorganization is conservative in his statements regarding what can be accomplished in the way of saving. While there is the utmost confidence that a million dollars a day can be saved, yet that is a minimum and not a maximum. If it is possible to save two millions a day—and many believe that it can be done—it is to be saved.

The committee is not yet sufficiently into the work to give any highly reliable prediction as to the probable results. So far it has been possible only to skim the surface.

SIX COMMANDMENTS FOR THE MODERN CAPITALIST

Employers and Workers in Spain Receive Them.

JENES DE LA FRONTERA, Spain, June 19.—Six commandments for the modern capitalist were laid down in an address here today before a gathering comprising representatives of all the societies of employers and workers. They were as follows:

First—Not to give an example to others and not to content himself with a life of ease.

Second—Not to despise the efforts of the workers to improve their conditions.

Third—To use his wealth in a natural way by employing it to increase the prosperity of all.

Fourth—To apply himself to production for the general benefit, instead of thinking duty is fulfilled by regular churchgoing and the saluting of the national flag, while at the same time he appropriates the major portion of the products of the earth.

Fifth—To respect the associations of the workers.

Sixth—To avoid the adoption of violence, because repression engenders revolution.

WOUNDED WAR VETERAN IS LISTED AS SLACKER

William Perry of Brooklyn Saw Service Overseas.

The latest list of draft evaders contains the name of William Perry of 222 Dean street, Brooklyn, who served with the Twenty-third Regiment on the Mexican border and later overseas, where he was wounded in action on September 25, 1918.

Perry was sent to a hospital at Portsmouth, England, and remained there two months. He arrived in the United States in December and was discharged from the service in January, 1919, at Camp Upton. He is a member of the American Legion Post of the 106th Infantry.

Vernon Snuggins of 319 St. Mark's avenue, Brooklyn, also is on the list. He has been dead for three years.

Twenty-four of the thirty named in the list are not known at the addresses given. Three have "moved away," and another, Timothy Gordon of 456 Vandeventer avenue, has been in Ireland for three years.

VETERANS WILL SELL 'RED TAPE' AT \$1 FOOT

Money Will Go to \$200,000 Fund for Unemployed.

"Red tape" at \$1 a foot will be sold by the Veterans of Foreign Wars in this city in their attempt to raise \$200,000 to assist unemployed ex-soldiers who are unable to make their own living. This announcement was made last night by George Barr Baker, chairman of the national committee of the organization, during a speech at the forum of the Church of the Ascension, Fifth avenue and Tenth street, on "The Unpaid Debt."

Mr. Baker criticized the Government for failing to provide proper care for the men who fought in the war.

PLOT SEEN TO START A GREEK-SOVIET WAR

Russian Ships, It Is Said, Will Carry Arms to Turks.

LONDON, June 19.—A despatch to the Exchange Telegraph Company from Constantinople, dated June 19, declares an agreement has been reached between the Angora and Moscow Governments for the direct transportation of munitions for the Turkish Nationalists from Novorossiisk, Soviet Russia, across the Black Sea, to Turkish ports, on ships flying the Soviet Russian flag.

The intention, says the message, is believed to be to bring about war between Greece and Soviet Russia if the Greek fleet in Black Sea waters should sink any Russian vessel.

The Bigness of Being Small

A small corporation (like Owens & Company) has certain distinct advantages over the big fellows.

You're more apt to come into first hand contact with the men responsible.

Men who esteem it their job to make a careful study of your requirements—see that your equipment lives up to its reputation—watch out for your preferences and take pains to see that you get the coal best suited for your needs.

It needs all these things to ensure good

Coal

Owens & Company are frequently called as experts to determine a fuel problem.

In some cases they have been able to save the purchaser a good deal of money by suggesting wise economies.

IRISH IN A.F.L. SPLIT ON BRITISH BOYCOTT

Signers of Resolution Asking for Ban Rescind Their Previous Action.

BOTH QUOTE DE VALERA

His Secretary Says 'Republican's President' Does Not Mix in Fight.

DELAY STEEL MILL DRIVE

Officers Will Await Trade Revival for Attempt at Unionizing.

DENVER, June 19.—The split between the two factions of Irish sympathizers in the American Federation of Labor convention here widened to-night when a majority of the signers of a resolution demanding a boycott of British-made goods announced they had petitioned the resolutions committee asking permission to withdraw the declaration.

While the delegates opposed to the boycott resolution were framing their petition, the remaining supporters of the resolution issued a statement asserting that they would carry the fight to the floor of the convention, declaring that they were acting in accordance with the wish of Eamon de Valera.

On the other hand, a group of delegates opposing the boycott and urging adoption of a less drastic resolution made public a telegram from Harry Boland of New York, secretary to De Valera, which repudiated the contention of the boycott supporters that their declaration was the "official resolution of the Irish Republic."

"I would like to say that I have not in any way interfered or attempted to interfere in the deliberations of the American Federation of Labor," said Boland's telegram, which was in reply to a query from fourteen international union officials as to whether the boycott resolution was the "official resolution of the Irish Republic."

Seeks Support of A. F. of L.

"We seek the sympathy and support of the American Federation of Labor, but clearly understand it is a question solely for the delegates themselves to decide how, if at all, such sympathy should be expressed and support given."

"We have not deputized any individual or delegate to the convention to speak for President de Valera or the Irish mission. We very naturally would wish to see strong action taken by the Federation in Ireland's behalf, but despite the fact that groups within the convention would exploit the cause of Ireland to their own political ends, the cause of Ireland and the suffering of our people are too sacred to

Canada Is Considering Way to Get Bergdoll

OTTAWA, Ont., June 19.—The extradition from Germany of Grover C. Bergdoll, United States draft evader, is under consideration by the Canadian Government, C. J. Doherty, Minister of Justice, announced to-night. Bergdoll is reported to have reached Germany on a forged Canadian passport.

This is the first official announcement that the Canadian Government has taken action in the Bergdoll case. Some time ago American Legion officials petitioned Canadian war veterans' organizations to bring the deserter's case to the official attention of the Dominion Government.

us to permit them to be used as a political weapon or club against individuals or policies within the American Federation of Labor."

Sam Evans, personal representative of Frank P. Walsh, heading the supporters of the boycott resolutions, gave out a telegram alleged to have been sent by Boland to Peter J. Brady of New York, head of a delegation of Irish sympathizers here, which said:

"Vital and important that resolution be submitted as written. You promised me to introduce the resolution. We are willing to take a licking. Rely on you at this crisis in Ireland's affairs to stand by your race."

Says If Referred to Boycott.

Mr. Evans declared this telegram referred to the boycott resolution, which was rejected by the committee headed by Mr. Brady.

Frank P. Walsh has also sent a telegram urging support of the boycott resolution, declaring that "boycott on English goods would, in my opinion, free Ireland."

"A mere resolution of sympathy for Ireland would be a backhand blow at the bravest little nation that ever fought for its life in the history of the world," he added.

The opening of the actual nationwide campaign to unionize the steel industry has been postponed indefinitely because of the industrial depression. It was officially announced to-night.

This action was decided upon today by the executive council of national and international organizations in the steel industry affiliated with the American Federation of Labor.

BRITISH PREMIERS ARE IN CONFERENCE TO-DAY

Japanese Alliance Seen as Foremost Subject.

LONDON, June 19.—The conference of the overseas Premiers will open in the official residences of Premier Lloyd George to-morrow. Lloyd George will preside. The first business of the conference will be to settle questions of procedure and publicity—how and to what extent its decisions will be communicated to the public.

Of the many difficult problems needing discussion some, it is clear, will have to be left for a subsequent conference. This is especially the case with the question of armaments, until it is seen what, if any, international action is taken on this subject. It is probable the foremost subject for discussion will be the Anglo-Japanese alliance. A decision in this matter must be reached without delay, as the treaty comes to an end in July.

ADMIRERS OF SIMS TO MEET HIM IN BAY

Continued from First Page.

into a riot. Others were confident that the navy would arrange to take the Admiral away before the Olympic reaches the coast.

On the other hand, some of the more moderate of the Irish sympathizers have protested against a mock reception, saying that it would savor too much of hypocrisy and could not possibly do the Irish cause any real good. John Larkin Hughes, head of the New Jersey branch of the association, said the proposed reception was in the nature of a "gaily stunt" and would not take place if he could prevent it.

Charles Stewart Dawson of 25 Wall street, whose name has been mentioned in connection with Mr. Whiting in preparation for the genuine reception, made the following statement yesterday on the merits of the case of Admiral Sims and Secretary Denby:

"In this case of any infraction of naval discipline by any distinguished officer there are three things which should occur and become apparent as being existent in the subsequent progress of the matter and official action."

"1. There should be an affirmative showing of personal consideration for the individual—possibly to an extent which under other circumstances would appear to be unduly emphasized."

"2. There should be a demonstrative establishment of an undebatable and unequivocal infraction of express naval regulation or recognized naval discipline."

"3. There should be an affirmative recognition of any provocative or extenuating cause."

REPRIMAND EXPECTED AS SIMS'S PUNISHMENT

Navy Department May Take the Easiest Way Out.

Special Despatch to THE NEW YORK HERALD.

New York Herald Bureau, Washington, D. C., June 19.

There is a growing impression in Washington that Admiral Sims will escape with a formal reprimand. While friends and critics are preparing to give the Admiral a warm welcome when he arrives, the Navy Department is wondering just what kind of a reception it shall extend to him. Public reaction to the Sims episode is not convincing the department that it has pursued a wise course in curtly ordering him home. The order carried the intimation of a court-martial or something worse and now the department fears it has undertaken a larger contract than it is prepared to carry out.

The situation is embarrassing because failure to discipline the Admiral will bring criticism from a certain element in the country, while severe treatment is almost certain to cause an uproar. The result is that the department is understood to be finding an easy way out and it is expected Admiral Sims will have the way for this easy way in the personal report he will make to Secretary Denby.

There is no question that Mr. Denby feels called upon to make it plain to Admiral Sims and other officers of the navy that they are not expected to indulge in free talking which may assume an international flavor. It is believed a formal reprimand from the Secretary of the Navy will accomplish this purpose.

PEACE IN NEAR EAST IN A CRITICAL STAGE

ble its unanimous report, which is considered to be possible along the French thesis, since Gen. Perceval's successor, Sir Harold Stuart, is considered to be distinctly Francophile.

GREEKS FOR MEDIATION BY U. S. AND BRITAIN

Offer of Intervention Would Be Welcomed.

LONDON, June 19 (Monday).—An offer of Anglo-American intervention would be welcomed by the best opinion in Greece in order to avoid unnecessary bloodshed in the forthcoming offensive, the sources correspondent of the London Times has authoritative grounds to believe.

He adds that the British Consul officially visited Premier Gounaris Saturday.

NEW ALLY OFFERS MAY HALT GREEK OFFENSIVE

20,000 Nationalists Are Uniformed by Italians.

By the Associated Press.

SURFRA, June 19.—Georges Baidadj, Foreign Minister in the Greek Cabinet, arrived here unexpectedly yesterday. The impression prevailed that the purpose of his visit was to discuss with King Constantine and Premier Gounaris new allied proposals relative to a settlement of the Near East question. Belief was expressed shortly after his arrival that fresh offers of mediation by the Allies might have the effect of postponing the Greek offensive against the Turkish Nationalists.

A letter received here from an American being in Marash, a city near the frontier between Cilicia and Syria, says that town is the center of a Nationalist mobilization. Thirty thousand Nationalist troops have arrived from Diarbekir, Sivas and Kharpout, and 20,000 of them are said to be well equipped with uniforms furnished by Italians. The letter adds there are indications the Nationalists may attack Adana, a city held by the French and situated in southern Asia Minor.

Up to the present time King Constantine has not visited the town of Smyrna. The fact the King did not venture ashore at Smyrna upon his arrival but gave the people a glimpse of himself only at a distance, created much comment, as did the fact that the Greek authorities were so concerned over the King's safety that they disarmed even their own policemen and soldiers. Ferdinand of Rumania has telegraphed Constantine wishing him a triumphant success as head of the Greek army.

CONSTANTINE FAILS TO WIN VENIZELOS TROOPS

Morale of Greek Army Is Viewed as Uncertain.

By the Associated Press.

CONSTANTINOPLE, June 19.—The delay in the predicted Greek offensive against the Turkish Nationalists is believed in neutral quarters here to be due to the uncertain morale of the Greek troops, coupled with what is reported to be the fairly good condition of the Turkish forces.

Reports reaching here indicate Constantine has failed to win over the Venizelos troops in the Greek army, notably the Cretans, who, under the Venizelos regime were the backbone of the Greek military establishment. Quarrels have been occurring for several months past among the Greeks in various portions of the army, and the entire draft of the senior officers at the front have been replaced by adherents of the Constantine party, irrespective of their merits as officers.

Many allied observers mistrust the Greek morale under such conditions, and they also believe the Turks have a better general staff, with Ismet Pasla the superior in strategy of Gen. Dousmetis, the Greek Chief of Staff, both of whom were German trained.

LEAGUE COUNCIL HOLDS OPEN SESSION TO-DAY

Aland Islands Dispute Will Be Taken Up.

By the Associated Press.

GENEVA, June 19.—The council of the League of Nations will hold its first open session to-morrow, the council having decided, after a long debate, to make the experiment of open meetings for actual discussions. The Aland Islands dispute will be taken up.

The council has come to the decision that nothing can be done further regarding the manufacture of 10,000 rifle barrels for Mexico by the Danzig Arms factory. Gen. Sir Richard Haking, High Commissioner under the league at Danzig, has issued strict orders that no more orders for arms shall be accepted by the Danzig factory. The Mexican order was received a few weeks before the free city came under the supervision of the league.

CUSTOMS ACT 'ILLEGAL'

MADRID, June 19.—The Spanish Government acted both illegally and absurdly in issuing the royal order establishing higher customs duties for countries with depreciated currencies, the Economist argues in an article to-day. The Gazette of a royal order of such importance without informing Parliament, the newspaper insists, was the most audacious act in the history of "this arbitrary Ministry."

The new duties contained within themselves the causes of difficulties in the international situation, the Economist declares, as they are based upon something on which foreign countries are sensitive, namely, their depreciated monetary values.

Months ago Mr. Harding took occasion to re-enunciate the doctrine of a Cabinet Government as against One-Man Control.

The doctrine is sound, because it is not wise that the welfare and safety of millions of people should be reposed in the brain cells of a single mind.

Neither is it prudent that the financial safety and well being of thousands of human beings should be placed in the custody of a single individual.

That is why our Directors, like the appointees to Mr. Harding's Cabinet, have been chosen for their knowledge and ability and not for ornament.

Alone, any one of these Directors is a competent financial and real estate authority, but together they are a Cabinet of Strength, freed from individual prejudice and fused with the stabilizing influence of many minds.
